

1964 No. 20

The Public Health (Aircraft) (Guernsey) Order, 1964.

---

Made .. .. . 25th September, 1964.

Coming into Operation .. . 3rd October, 1964.

---

THE STATES BOARD OF HEALTH, in consultation with the States Board of Administration and in pursuance of the powers conferred upon it by section two of the Public Health (Vessels and Aircraft) (Guernsey) Law, 1950 (a), and of all other powers enabling it in that behalf, hereby orders:-

Interpretation 1. (1) The Interpretation (Guernsey) Law, 1948 (b), shall apply to the interpretation of this Order as it applies to the interpretation of an enactment.

(2) In this Order, unless the context otherwise requires, the following expressions have the meanings hereby respectively assigned to them, that is to say -

"additional measures" means such of the additional measures specified in the Second Schedule to this Order with respect to the quarantinable diseases as are appropriate;

"aerodrome" means any area of land or water designed, equipped, set apart or commonly used for affording facilities for the alighting and departure of aircraft;

"Aircraft Declaration of Health" means a declaration containing the information specified in the First Schedule to this Order, being either a separate document or a part of the Aircraft General Declaration

Aviation (Chicago, 1944);

"authorised officer" means the States Medical Officer of Health or any other officer authorised by the Board to perform the duties of an authorised officer under this Order;

"the Board" means the States Board of Health;

"commander" means the person for the time being in command of an aircraft;

"customs airport" means an aerodrome for the time being so designated by the Minister of Civil Aviation, with the concurrence of the States Board of Administration;

"customs officer" means a States Customs Officer duly appointed by the States Civil Service Board and acting under the authority and direction of the States Board of Administration;

"excepted area" means the United Kingdom, the Channel Islands, the Isle of Man, the Republic of Ireland, France in Europe, Belgium, the Netherlands, Luxembourg, Italy, Greece and the Federal Republic of Germany;

"immigration officer" means any person appointed by the States Civil Service Board to act as an immigration officer;

"infected aircraft" means -

(a) an aircraft which has on board on arrival a case of human plague, cholera, yellow fever or smallpox; or

(b) an aircraft on which a plague-infected rodent is found on arrival; or

(c) an aircraft which has had a case of smallpox on board during its voyage and which has not before arrival been subject in respect of such case to appropriate measures equivalent to those provided for in this Order;

"infected area" means an aerodrome or other area included in the list kept by the medical officer pursuant to section two, and references to an area infected with a specified disease shall be construed accordingly;

"infected person" means a person who is suffering from a quarantinable disease, or who is considered by the medical officer to be infected with such a disease;

"infectious disease" means a quarantinable disease or any other infectious or contagious disease other than venereal disease or tuberculosis;

"International Sanitary Regulations" means the International Sanitary Regulations adopted by the Fourth World Health Assembly on the 25th May, 1951, as amended by regulations adopted by any subsequent World Health Assembly;

"the Island" includes the Islands of Alderney, Herm and Jethou;

"medical officer" means the States Medical Officer of Health or any other registered medical practitioner appointed by the Board to perform the duties of a medical officer under this Order;

"police officer" means -

(a) in relation to Guernsey, Herm and Jethou, a member of the salaried police force of the Island of Guernsey and, within the limit of his jurisdiction, a member of the special constabulary of the Island of Guernsey;

(b) in relation to Alderney, a member of the said police force and a member of any police force which may be established by the States of Alderney;

"quarantinable disease" means plague, cholera, yellow fever, smallpox, typhus or relapsing fever;

"relapsing fever" means louse-borne relapsing fever;

"sanitary airport" means a customs airport which has been designated in accordance with Article nineteen of the International Sanitary Regulations;

"suspect" means a person (not being an infected person) who is considered by the medical officer to have been exposed to infection by a quarantinable disease and to be capable of spreading the disease;

"suspected aircraft" means an aircraft from which a case of cholera occurring on board during the voyage has been disembarked before the arrival of the aircraft, and which has not before arrival been subjected in respect of such case to appropriate measures equivalent to those provided for in this Order;

"typhus" means louse-borne typhus;

"valid International Vaccination Certificate" means a certificate of vaccination or re-vaccination against smallpox which is in the form laid down, and conforms with the rules as to validity contained, in Appendix 4 to the International Sanitary Regulations;

"voyage", in relation to an aircraft, means the flight of the aircraft from its point of origin via any intermediate points to its point of termination.

(3) Any reference in this Order to any other enactment shall be construed as including a reference as amended, repealed and re-enacted, extended or applied by or under any other enactment including this Order.

(4) Any reference, however expressed, to a person leaving an aircraft shall be construed as a reference to that person leaving the aircraft and not continuing his journey in that aircraft.

(5) An aircraft shall not be deemed to have been in an infected area if, having voyaged over infected territory, it has alighted in that territory only at a sanitary airport which is not itself an infected area.

List of infected areas

2. (1) The medical officer shall from time to time prepare and keep up-to-date a list of aerodromes and other areas which are infected or believed to be infected with a quarantinable disease or which may serve other places or areas so infected or believed to be so infected.

(2) The medical officer shall supply copies of every such list and any amendment thereof to the customs officer at the airport and to the person in charge of the airport.

(3) In preparing and amending the said list, the medical officer shall take into account all information sent to him from time to time by the Minister of Health or issued by the World Health Organisation.

Inspection of Aircraft

3. (1) The medical officer may, for the purposes of this Order, inspect any aircraft at a customs airport.

(2) The medical officer shall -

(a) inspect on its arrival any aircraft in respect of which the commander has sent a message under section eight;

(b) inspect any aircraft at the airport when he has reasonable grounds for believing that there is on board a case or suspected case of infectious disease.

(3) The medical officer may require any aircraft which he intends to inspect under the foregoing provisions of this section to be taken to some safe and convenient part of the airport for such inspection if it cannot otherwise be carried out effectively.

Examination etc.  
of persons on  
aircraft

4. (1) The medical officer may, and if so requested by the commander or required by the Board shall, examine any person on board or leaving an aircraft at a customs airport, when there are reasonable grounds for suspecting that -

- (a) the person is suffering from an infectious disease;
- (b) the person has been exposed to infection from an infectious disease;
- (c) the person is verminous.

(2) The medical officer may -

- (a) detain any such person for such examination at a place appointed for the purpose;
- (b) require any person so examined to be disinfected, and his clothing and other articles belonging to him to be disinfected and, where necessary, disinfected;
- (c) except as provided in section seventeen, prohibit any person so examined from leaving the aircraft or airport, or permit him to leave it on such conditions and subject to the taking of such measures, pursuant to this Order, as the medical officer considers reasonably necessary for preventing the spread of infection;
- (d) require the commander to take or assist in taking such steps as, in the opinion of the medical officer, are reasonably necessary for preventing the spread of infection, for the destruction of insects or vermin, and for the removal of conditions on the aircraft likely to convey infection, including conditions the existence of which might facilitate the harbouring of insects or vermin.

(3) The medical officer or a customs officer may, and if so required by the Board shall, require any person on board or disembarking from an aircraft at a customs airport to produce a valid International Vaccination Certificate.

(4) A customs officer may detain until the arrival of the medical officer, or for three hours, whichever is the shorter period, any such person as aforesaid who has been required to produce such a certificate and is unable to do so.

(5) Where any such person fails to satisfy the medical officer that he possesses such a certificate, the medical officer may detain him for examination at a place appointed for that purpose, and may apply in his case the additional measures mentioned in paragraphs (1) and (2) of Part IV of the Second Schedule to this Order.

Powers in re-  
spect of persons  
leaving aircraft

5. Where a person intending to leave an aircraft at a customs airport is suffering, or the medical officer suspects that he is suffering, from an infectious disease or tuberculosis, the medical officer may -

(a) in the case of an infectious disease, cause such person on leaving the aircraft to be isolated, or to be removed to a hospital or to some other suitable place approved for that purpose by the Board, as may be appropriate; or, except as provided in section seventeen, the medical officer may, by notice in writing to the commander, prohibit the person from leaving the aircraft without the consent in writing of the medical officer;

(b) in the case of tuberculosis, if the person leaves the aircraft, send information to that effect to the medical officer of health for the area in which the intended destination of the person is situated.

Notice to customs officer by medical officer

6. The medical officer at a customs airport shall inform the customs officer of any measure applied by him or at his direction, pursuant to this Order, to an aircraft, any person thereon, or its stores, equipment or cargo.

Supply of information, etc., by commander

7. The commander of an aircraft at a customs airport shall -

- (a) answer all questions as to the health conditions on board, which may be put to him by an authorised officer or a customs officer visiting the aircraft, and furnish any such officer with all such information and assistance as he may reasonably require for the purposes of this Order;
- (b) in addition to any message sent pursuant to section eight notify immediately on arrival to the medical officer any death on the aircraft during its voyage caused otherwise than by accident, any case of infectious disease on the aircraft, or any circumstances on board which are likely to lead to infection or the spread of infectious disease, including in his notification particulars as to the presence of dead rodents or mortality or sickness among rodents on the aircraft;
- (c) comply with this Order, and with any directions or requirements of an authorised officer given or made for the purpose of this Order.

Notification of infectious disease, etc. on board

8. (1) When there is on board an aircraft during its voyage a person who is suffering from an infectious disease or who has symptoms which may indicate the presence of infectious disease, or when there are on board the aircraft any other similar circumstances requiring the attention of the medical officer, the commander shall, immediately he is aware of the presence of such

disease, symptoms or other circumstances, send a radio message to that effect to the medical officer at the first customs airport at which the aircraft is due to arrive, or to the person in charge of such airport.

(2) If such radio message is sent to the medical officer, he shall immediately notify the customs officer of its contents.

(3) If such radio message is sent to the person in charge of the customs airport, he shall immediately notify the medical officer and the customs officer of its contents.

Aircraft  
Declaration of  
Health

9. (1) On the arrival of an aircraft at a customs airport, the commander or a member of the crew deputed to act on his behalf shall complete an Aircraft Declaration of Health and deliver it to the customs officer or medical officer, whoever first boards the aircraft.

(2) If the customs officer detains the aircraft pursuant to this Order and he requires a copy of the Declaration, the medical officer shall furnish him with such copy.

Detention of  
aircraft

10. (1) When on the arrival of an aircraft at a customs airport the medical officer has reasonable grounds for believing that the aircraft may be an infected aircraft or a suspected aircraft, or an aircraft which, although not falling within either of such categories, has had on board during the voyage a case of a quarantinable disease in respect of which the aircraft has not outside the Island been subjected to appropriate measures equivalent to those provided for in this Order, he may cause the aircraft to be detained for medical inspection.

(2) If the medical officer has caused an aircraft to be so detained, he shall inform the person in charge of the customs airport of such detention and send a notice in writing of such detention to the customs officer.

11. If a customs officer receives in respect of an aircraft a

shall, if he visits the aircraft before the medical officer, deliver the notice to the commander and take all reasonable steps to secure compliance therewith.

12. Where on the arrival of an aircraft at a customs airport it appears to the customs officer, from information in the Aircraft Declaration of Health delivered pursuant to section nine, or from information otherwise obtained, that during the voyage of the aircraft -

- (a) there has been on the aircraft a death caused otherwise than by accident, or a case of illness which is or is suspected to be of an infectious nature; or
- (b) the aircraft has been in an infected area; or
- (c) death not attributable to poison or other measures for destruction has occurred amongst rodents on the aircraft;

he shall, unless the medical officer otherwise directs, give such directions as to him seem necessary to secure the detention of the aircraft, the persons carried thereon, and its stores, equipment and cargo.

13. The detention of an aircraft by a customs officer under this Order shall cease as soon as the aircraft has been inspected by the medical officer or, if such inspection has not commenced within three hours after the aircraft has been so detained, on the expiration of that period:

PROVIDED that nothing in this section shall affect the power of the medical officer to continue the detention of an aircraft in accordance with section fourteen.

14. (1) The medical officer shall inspect any aircraft and the persons carried thereon as soon as possible and in any case within three hours after it has been detained under this Order.

(2) If the aircraft is one to which the medical officer is required by this Order to apply any further measure, or if after such inspection he considers it necessary to apply any further measure permitted by this Order, he may continue the detention of the aircraft, if such continued detention is necessary for the application of such further measure.

15. When the medical officer releases an aircraft from detention he shall give notice in writing to the customs officer, to the commander of the aircraft, and to the person in charge of the customs airport that, so far as control under this order is concerned, the aircraft is free to proceed at or after a date and time stated in the Notice.

Persons from  
infected areas

16. On the arrival of an aircraft at a customs airport, the medical officer may place under surveillance for the appropriate period specified in subsection (1) of section twenty-five -

(a) any person disembarking from the aircraft who has come from an infected area other than an area infected with yellow fever or plague; and

(b) any suspect disembarking from the aircraft who has come from an area infected with yellow fever or plague.

Removal of in-  
fected persons  
from aircraft  
when required by  
the commander

17. The medical officer shall, if so required by the commander of an aircraft on arrival at a customs airport, cause any infected person to be removed from the aircraft.

Removal to  
sanitary  
airport

18. If the medical officer considers that there should be applied to an aircraft which alights elsewhere than at a sanitary airport, or to any person carried thereon, measures pursuant to this Order which can be applied only at a sanitary airport, he may direct that the aircraft or any such person shall proceed to a sanitary airport and he shall give the commander notice in writing of the direction and of the reasons for the direction.

Additional  
measures

19. Without prejudice to any other provision in this Order, the additional measures shall be applicable on the arrival at a customs airport of -

- (a) any infected aircraft or suspected aircraft;
- (b) any aircraft on which there is a case of typhus or relapsing fever;
- (c) any aircraft which has during its voyage been in an area infected with plague, cholera or yellow fever;
- (d) any suspect for smallpox on an aircraft other than an infected aircraft;
- (e) any person on any aircraft who has come from an area infected with typhus or relapsing fever;
- (f) any other aircraft or person when the medical officer is satisfied that, notwithstanding that measures equivalent to the additional measures have been applied to the aircraft or person previously during its voyage, there is on board or has been on board since such previous application an infected person or suspect and that it is necessary again to apply any such measure, or the medical officer has evidence that such previous application was not substantially effective.

Avoidance of  
delay

20. In applying any measures pursuant to this Order, the medical officer shall have regard to the need for freeing aircraft from control under this Order as quickly as possible.

Aircraft  
alighting else-  
where than at a  
customs airport

21. (1) Where an aircraft alights elsewhere than at a customs airport -

- (a) the commander shall forthwith give notice to that effect to the medical officer or a customs

officer or an immigration officer or a police officer and, if the aircraft has alighted at an aerodrome, to the person in charge thereof;

(b) save for the purpose of the preceding paragraph, no person carried by the aircraft shall leave its vicinity unless authorised so to do by the medical officer, and any person so authorised shall inform such officer of his name and the address of his intended destination, but this paragraph shall not be construed as dispensing with the necessity to secure any consent arising under any other enactment;

(c) subject as aforesaid, this Order shall apply, with any necessary modifications, in relation to the aircraft, the persons carried thereon, and its stores, equipment and cargo, to the extent to which they are not required by a police officer or customs officer to proceed or, as the case may be, to be taken to a customs airport, as if the aircraft had alighted at a customs airport and for the purposes of such application the list of infected areas kept pursuant to section two shall be the list so kept by the medical officer.

(2) If any person who has informed an officer pursuant to this section of the address of his intended destination arrives within fourteen days thereafter at some other address, he shall forthwith send particulars of that address to the medical officer of health.

Saving for certain aircraft, etc.

22. In the case of an aircraft which has commenced its voyage at a place within the excepted area and has not during its voyage alighted at any place outside that area -

(a) the commander shall not be bound to comply with

the provisions of section seven, subsection (1) of section nine or paragraph (a) of subsection (1) of section twenty-one unless he has been notified by the medical officer that compliance with those provisions is necessary on account of danger to public health;

- (b) no person carried by the aircraft shall be bound by the provisions of paragraphs (b) or (c) of subsection (1) of section twenty-one unless he has been notified by the medical officer that the said provisions apply to him on account of danger to public health;
- (c) the powers and duties conferred or imposed on the medical officer by section three, subsections (1), (2), (3) and (5) of section four, section five, subsection (1) of section ten, subsection (2) of section fourteen, and sections sixteen, seventeen, eighteen and nineteen shall not be exercised or performed unless the medical officer is satisfied, or the Board has directed, that the exercise of the powers or the performance of the duties conferred or imposed by those provisions is necessary on account of danger to public health;
- (d) the duties imposed on a customs officer by subsections (3) and (4) of section four and section twelve shall not be performed unless the Board has directed, or the medical officer is satisfied and has so informed the customs officer, that performance of those duties is necessary on account of danger to public health.

Examination, etc. 23. Where an aircraft is due to depart from an aerodrome for a destination outside the Island, the medical officer -

- (a) may examine any person who proposes to embark thereon if he has reasonable grounds for believing him to be suffering from a quarantinable disease, and, if after examination the medical officer is of opinion that he shows symptoms of such a disease, shall prohibit his embarkation;
- (b) shall prohibit any suspect from embarking thereon:

PROVIDED that, in the case of smallpox, a person shall not be prohibited from embarking if he satisfies the medical officer that he is sufficiently protected by vaccination or by a previous attack of smallpox;

- (c) shall notify the commander of any person embarking or proposing to continue his voyage thereon who, in the opinion of the medical officer, should be placed under surveillance.

Compliance with directions, etc. under this Order

24. Every person to whom this Order applies shall comply with every direction, requirement or condition given, made or imposed by an authorised officer or customs officer pursuant to this Order, and shall furnish all such information as any such officer may reasonably require (including information as to his name, destination, and address to which he is going on leaving an aerodrome); and every person who has for the time being the custody or charge of a child or other person who is under disability shall comply with any direction, requirement or condition so given, made or imposed, and shall furnish all such information as aforesaid, in respect of such child or other person.

25. (1) Where this Order permits the medical officer to place a person under surveillance, the period of such surveillance shall not exceed such of the following periods as may be appropriate:-

- (a) in respect of plague, six days;
- (b) in respect of cholera, five days;
- (c) in respect of yellow fever, six days;
- (d) in respect of smallpox, fourteen days;
- (e) in respect of typhus, fourteen days;
- (f) in respect of relapsing fever, eight days.

(2) When a person has been so placed under surveillance for plague, cholera or smallpox pursuant to section sixteen by reason of his having come from an infected area, the period shall be reckoned from the date of his leaving the infected area.

(3) When a person has been so placed under surveillance pursuant to the additional measures, the period shall be reckoned in the manner therein specified.

26. Every person who is placed under surveillance pursuant to this Order shall -

- (a) give facilities for any medical examination required by the medical officer during the period of surveillance;
- (b) furnish all such information as the medical officer may reasonably require with a view to ascertaining the person's state of health;
- (c) forthwith upon arrival during the period of surveillance at any address other than the one stated as his intended destination on leaving the aerodrome at which he arrived in the Island send particulars of that address to the medical officer;
- (d) if so instructed by the medical officer, report during the period of surveillance to that officer at such intervals as he may require.

27. (1) Where the commander of an aircraft is required by or pursuant to this Order to carry out any measures with a view to reducing the danger or preventing the spread of infection, the Board may itself at the request of the commander, and, if it thinks fit, at his cost, cause any such requirement to be complied with instead of enforcing the requirement against the commander.

(2) The amount of the charge for any work so to be undertaken by the Board shall be such reasonable sum as represents the actual or estimated cost to be incurred in undertaking the work excluding any charge or claim in respect of profit, so however that it shall not exceed the sum of fifty pounds unless notice of the proposed charge has been given to the commander before the work is undertaken.

(3) Where under this section the Board causes any requirement to be complied with at the cost of the commander, it may, if it thinks fit, require the amount of the charge for the work or a part thereof to be paid to or deposited with the Board before the work is undertaken.

(4) Where pursuant to this Order, any measures have been taken with regard to an aircraft, the Board or the medical officer shall, on request by the commander, furnish him free of charge with particulars in writing of those measures and the reasons why they were taken.

(5) Where, pursuant to this Order, any measures have been taken with regard to any person or to any articles in his possession, the medical officer shall, on request by such person, furnish him free of charge with particulars in writing of those measures, including the date on which they were taken.

28. Every charge authorised by section twenty-seven shall be recoverable as a civil debt.

Expenses of  
the Board

29. Subject to the provisions of section twenty-seven any expenses incurred by the Board in the enforcement and execution of this Order shall be defrayed in the same manner as the expenses incurred in the execution and discharge of its existing powers and duties.

Saving for  
mails

30. Except to the extent permitted by Part II-C of the Second Schedule to this Order with respect to fish, shellfish, fruit, vegetables and beverages, nothing in this Order shall render liable to detention, disinfection or destruction any article forming part of any mail conveyed under the authority of the Postmaster-General, or of the postal administration of any other Government, or shall prejudicially affect the receipt on board and delivery in due course at the place of destination of any such mail in accordance with the provisions of the Post Office Acts, 1908 to 1940.

Saving for  
aircraft un-  
willing to  
comply with  
this Order

31. (1) The commander of an aircraft on arrival or already at an aerodrome, who is unwilling to comply with or submit to any provision of or requirement made under this Order which may be applicable, shall so notify the medical officer. The medical officer may then require the commander to remove the aircraft immediately from the aerodrome.

(2) If before leaving the aerodrome the commander wishes to discharge cargo or disembark passengers or to take on board fuel, water or stores, the medical officer shall permit him to do so but may impose such conditions pursuant to this Order as the medical officer considers necessary.

(3) When the medical officer has so required the removal of an aircraft from the aerodrome, it shall not during its voyage alight at any of the other Islands to which this Order applies.

Saving for  
existing orders

32. Nothing in this Order shall affect the Air Navigation (Guernsey) Order, 1926 (c), or the Aliens Restriction (Guernsey) Law, 1958 (d).

Repeal 33. The Public Health (Aircraft) (Guernsey) Order, 1953 (e), is hereby repealed.

Citation 34. This Order may be cited as the Public Health (Aircraft) (Guernsey) Order, 1964.

Commencement 35. This Order shall come into force on the *third* day of *October* nineteen hundred and sixty-four.

Dated this *25<sup>th</sup>* day of *September* nineteen hundred and sixty-four.

ALLAN N. GRUT

President  
States Board of Health for  
and on behalf of the Board

#### FIRST SCHEDULE

Information required to be included in the  
Aircraft Declaration of Health

- (a) Details of persons on board known to be suffering from illness, other than air-sickness or the effects of accidents, and details of persons known to be suffering from such illness who have disembarked during the flight.
- (b) Details of any other condition on board the aircraft during its voyage, which may lead to the spread of disease.
- (c) Details of every disinsecting or sanitary treatment (place, date, time and method used) applied to the aircraft during its voyage; if there has not been any such disinsecting or treatment, details of the last disinsecting or treatment.

SECOND SCHEDULE

Additional Measures with respect to the  
Quarantinable Diseases

PART I - PLAGUE

A. Infected aircraft

- (1) The medical officer may -
  - (a) require any suspect on board to be disinfected and place him under surveillance, the period of surveillance being reckoned from the date of arrival of the aircraft;
  - (b) require the disinfecting and, if necessary, disinfection of the baggage of any infected person or suspect, and of any other article on board and any part of the aircraft which the medical officer considers to be contaminated.
- (2) If the aircraft is infected because a plague-infected rodent is found on board, the medical officer shall require the aircraft to be deratted in a manner to be determined by him.

B. Aircraft which have been in infected areas

- (3) The medical officer may place under surveillance any suspect who disembarks, the period of surveillance being reckoned from the date of the departure of the aircraft from the infected area.

PART II - CHOLERA

A. Infected aircraft and suspected aircraft

- (1) The medical officer may -
  - (a) place under surveillance any person who disembarks, the period of surveillance being reckoned from the date of arrival of the aircraft;

(b) require the disinfection of the baggage of any infected person or suspect, and of any other article on board and any part of the aircraft which the medical officer considers to be contaminated;

(c) require the disinfection and removal of any water on board which he considers to be contaminated, and the disinfection of the containers which have held such water.

(2) The medical officer shall prohibit the discharge or unloading from the aircraft of human dejecta and any other waste matter or water, which may be contaminated and has not been disinfected.

B. Aircraft which have been in infected areas

(3) The medical officer may place under surveillance any person who disembarks, the period of surveillance being reckoned from the date of the departure of the aircraft from the infected area.

C. Infected aircraft, suspected aircraft, and aircraft which have been in infected areas

(4) In addition to any measure permitted or required by the preceding provisions in this Part, the medical officer may prohibit the unloading of, or may remove from the aircraft, any fish, shellfish, fruit or vegetables to be eaten uncooked, or beverages, not forming part of cargo in a freight compartment of the aircraft, which he considers to be contaminated, and, if any such food or beverage is so removed, he shall arrange for its safe disposal in consultation with the customs officer.

(5) If any of the said food or beverage forms part of cargo in a freight compartment of the aircraft and is so contaminated, the medical officer at the aerodrome at which such cargo is due to be discharged shall arrange for its safe disposal in consultation with the customs officer.

PART III - YELLOW FEVER

Infected aircraft and aircraft which have been in  
infected areas

The medical officer may require the aircraft to be disinfected  
for the destruction of vectors of yellow fever which may be on board.

PART IV - SMALLPOX

A. Infected aircraft

(1) The medical officer shall offer vaccination to any person  
on board or disembarking from the aircraft who does not show  
sufficient evidence of protection by a previous attack of small-  
pox or who does not satisfy the medical officer that he possesses  
a valid International Vaccination Certificate.

(2) The medical officer may either -

- (a) place under surveillance any person who disembarks,  
the period of surveillance being reckoned from the  
date on which the medical officer considers the  
person was last exposed to infection; or
- (b) if he considers any such person not to be  
sufficiently protected against smallpox, isolate  
him for a similar period.

(3) The medical officer shall require the disinfection of the  
baggage of any infected person, and of any other article on board  
and any part of the aircraft which the medical officer considers  
to be contaminated.

B. Suspects on other aircraft

(4) The medical officer may also apply the provisions of  
paragrpahs (1) and (2) of this part to any suspect who disembarks  
from an aircraft which is not an infected aircraft.

PART V - TYPHUS AND RELAPSING FEVER

A. Aircraft with infected persons on board

(1) The medical officer may require -

- (a) any suspect on board to be disinfected;

(b) the disinsecting and, if necessary, disinfection of the accommodation occupied by any infected person or suspect, his clothes and baggage, and any other article which the medical officer considers may spread typhus or relapsing fever.

B. Persons coming from infected areas

(2) The medical officer may require the disinsecting of any person who has left an infected area not more than fourteen days before arrival in the case of typhus, or eight days before arrival in the case of relapsing fever.

(3) If any person so disinsected is placed under surveillance, the period of surveillance shall be reckoned from the date of disinsecting.
