

GUERNSEY STATUTORY INSTRUMENT

1953 - No. 27

The Safety of Employees (Miscellaneous Provisions)  
Ordinance, 1952.

Certificate of Exemption No. 5

Steam Boilers.

Made ... .. 2nd March, 1953  
Coming into Operation ... 2nd March, 1953

The States Labour and Welfare Committee, as the Administering Authority constituted by the States under the Health, Safety and Welfare of Employees Law, 1950, and in pursuance of section eighteen of the Safety of Employees (Miscellaneous Provisions) Ordinance, 1952, hereby except the classes or types of steam boilers specified in the first column of the Schedule to this Certificate from the provisions of section fifteen of the said Ordinance specified in the second column of the said Schedule, subject, however, to the conditions and limitations set opposite thereto in the third column of the Schedule.

Dated this Second day of March, 1953

*Melville J. George*

President  
of the States Labour and  
Welfare Committee for and  
on behalf of the Committee.

SCHEDULE

Classes or Types of Steam Boiler	Provisions which shall not apply	Conditions or Limitations
Autoclaves. Dental Vulcanisers. Vulcanisers used for the repair of rubber tyres, except a vulcaniser connected with any other plant or capable of containing a whole tyre.	Subsection (1) (a) (iv)	Steam or water contained in any such boiler shall not be drawn off, nor be permitted to escape while the boiler is being heated, except such steam as may escape from a safety valve, fusible plug or bursting disc as the case may be. Provided that the use of any test cock or valve fitted at or above the normal water level for the purpose of ascertaining or adjusting the height of the water shall be deemed not to contravene this condition.

Classes or Types of Steam Boiler	Provisions which shall not apply	Conditions or Limitations
Dental Vulcanisers.	Subsection (1) (a) (i) and so much of subsection (7) as applies to a safety valve.	<p>(1) Each such steam boiler shall be fitted with two suitable pressure relieving appliances to prevent the boiler being worked at a pressure greater than the maximum permissible working pressure.</p> <p>(2) The appliances provided in pursuance of Condition (1) shall be properly maintained and be renewed once at least in every alternate period of fourteen months.</p>
Cast Iron Sectional Boilers for Steam Heating	Subsection (1) (c)	<p>(1) No steam or water shall be drawn from a boiler or from any pipe or apparatus connected therewith, except for the purpose of cleaning, examination or repair of the boiler or its fittings or connections, and</p> <p>(2) the heating system shall be arranged to return the whole of the condensed steam to the boiler, and</p> <p>(3) effective means shall be provided, maintained and used or effective supervision shall be exercised to ensure a suitable and safe level of water in each boiler under steam pressure.</p>
Independent Cast Iron Sectional Boilers for Steam Heating by Closed Pipe Systems.	Subsection (1) (a) (ii)	<p>This exception shall apply only to a boiler:-</p> <p>(i) which supplies steam to a closed heating system in which the condensed steam returns to the boiler, and</p> <p>(ii) which is not connected through such system with any other steam boiler, and</p> <p>(iii) which is not provided with a valve or other means of preventing water from the boiler entering such system.</p>
