PART II.

Where the width of any cloth of a description specified in Part I of this Schedule differs from the width or is outside the range of widths specified in relation to that description, the maximum prices specified in relation to that description shall be varied proportionately to the relation between the actual width of the cloth and the width or the mean of widths, as the case may be, specified in relation to that description.

EXPLANATORY NOTE.

(This Note is not part of the Order, but is intended to indicate its general purport).

This Order fixes retailers' maximum prices for utility woven cloth containing wool or other animal fibre; retailers' maximum prices for such cloth which have hitherto been fixed by The Utility Cloth and Utility Household Textiles (Maximum Prices) (Baillivick of Guernsey) Order, 1951, and computed by adding a percentage margin to the purchase price, are now to be computed by reference to the cash maximum prices set out in the Schedule to this Order.
