**EXPLANATORY NOTE**

*(This note is not part of the Regulations)*

These Regulations make further amendments to the Annexes to the Preserved Phytosanitary Conditions Regulation which has effect in Guernsey as preserved EU law.

The amendments are to align with amendments made in Great Britain, as, from the end of 2020, Guernsey has been part of a Great Britain and Crown Dependency Market in plants and plant products.

Regulation 1 amends Annexes 2, 2A, 7 and 11 of the Phytosanitary Conditions Regulation.

Regulation 1(2) adds the following pests to the Guernsey quarantine pest list in Annex 2: *Heterobasidion occidentale*, *Agrilus horni* and *Toumeyella parvicornis*. It also removes *Helicoverpa armigera* from that list.

Regulation 1(3) amends the list of provisional Guernsey quarantine pests in Annex 2A to remove the three pests which were added to Annex 2 by paragraph (2). *Homona magnanima* is added to the list at Annex 2A for the first time. An update is also made to amend the pest name "*Ennomos subsignarius*" to "*Ennomos subsignaria*".

Regulation 1(4) amends Annex 7 to make new provision for *Toumeyella parvicornis*, to remove the existing import requirements for *Helicoverpa armigera*, to update the import requirements for *Bursaphelenchus xylophilus* and to clarify the existing import requirements for *Xylella fastidiosa*.

Regulation 1(5) amends Part A of Annex 11 to align the list of plants, plant products and other objects and the respective third countries of origin or dispatch in respect of which phytosanitary requirements are required, with the updated requirements for *Bursaphelenchus xylophilus* set out in Annex 7.

Regulation 1(6) adds the seed of *Solanum sisymbriifolium* to the list of plants, plant products and other objects for which a UK plant passport is required for their movement within Guernsey or their introduction into Guernsey from a Relevant British Island, in Annex 13.

These Regulations come into force on 30<sup>th</sup> November 2025, except for regulation 1(4)(b) which amends Annex 7 to correct and clarify the existing import requirements for *Xylella fastidiosa*, which comes into force on 6<sup>th</sup> May 2026.
